

## Project Web Page

A SJC project web page has been created at the Network website! Visitors to the page can access project materials, forms, and information. In the coming months we will be sending out project announcements and updates through blog postings and providing links to the page.

A link to the page will be provided to the Network within the next week or so. If you would like to view it before then, go to [westernmasshousingfirst.org/blog/secure-jobs-connect](http://westernmasshousingfirst.org/blog/secure-jobs-connect).

## Screenshot

The screenshot shows the homepage of the Secure Jobs Connect website. At the top, there is a navigation menu with links for Home, Blog, CoC Corner, Leadership Council, Need help?, and About. The main header features the Secure Jobs Connect logo and a tagline: "The Network is coordinating a regional effort to increase employment opportunities and job security for at-risk families." Below this, there are three large, colorful tiles: "Employer Info Packet For Employers" (purple), "Application Packet For Job Seekers" (blue), and "Staff Info Packet For Staff or Allies" (teal). A callout box says "Click tiles for more!" with a mouse cursor pointing to the Employer Info Packet. Below the tiles are three smaller preview images: "Dashboard" showing various charts, "Advisory Committee" listing members, and "Monthly Progress Report" showing a bar chart. On the right side, there is a "SEARCH" box with the placeholder text "type and press enter". Below that is a "COMMITTEE WORK" section with a list of links: Meeting Minutes, Community Engagement, Family Services Committee, Individual Services Committee, Leadership Council, SAMHSA Mission West Community Consortium, and Unaccompanied Homeless Youth. At the bottom right, there is a "SUBSCRIBE TO THE BLOG:" section with the text "Join 109 other subscribers" and a "Sign me up!" button. Below that is a "RECENT BLOG POSTS" section.

The page includes information about project partners as well as employers who are participating in SJC activities. In addition, the visitor can access the **Secure Jobs Connect Dashboard**, where quarterly data is posted as an interactive visualization, so that the user can filter by provider or by project track.

Please contact Pamela or Andrea with suggestions about what you'd like to see on the page.
